WELCOME

Holguín: Its coasts, bathed by the Atlantic Ocean, made exclaim Admiral Christopher Columbus in 1492, when he disembarked his ships for Cayo Bariay: “This is the most beautiful land that human eyes have ever seen”

Located in the northeastern part of the country, it borders Las Tunas to the west, Guantánamo to the east, Santiago de Cuba and Granma to the south, and the Atlantic Ocean to the north, 774 kilometers from Havana. You can easily reach the city of Holguín, also called City of Parks, site guarded by mountains and ocean waters. The city stands out for its urban design, its historical heritage, its beaches and its inhabitants.

Holguín province is one of the most economically diversified in Cuba. It is the third in the country due to its population density, after Havana and Santiago de Cuba, with more than one million inhabitants.

In its geography the sublime has transcended the space of sensations to become real: surprising animals, elevations that contradict the laws of gravity, poets, warriors.

Holguín has a rich culture and tradition, enriched by the passage of history.

What are our symbols?

El Hacha de Holguín:

Built by agro-pottery groups of the 15th century, its artistic value makes it an exceptional work within the Cuban aboriginal culture. It represents a male anthropomorphic figure with a headband on the top and arms placed on the chest.

The Hymn of Holguín:

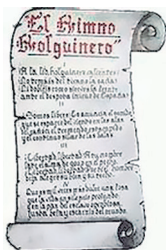

*A la lid, holguineros valientes
No temáis del tirano la saña
Ni dobléis como siervos la frente
Ante el déspota inicuo de España*

*Somos libres. Lo anuncia el sonido
Que se esparce del viento en las alas
Del cañón el tremendo estampido
Y el continuo silbar de las balas.*

*Libertad, libertad. A tu nombre
Late el alma de gozo en el pecho
Libertad, libertad. Por ti el hombre
Deja alegre su bien y su techo.*

*Que es mil veces más dulce una fosa
Que la vida en silencio profundo,
Y en la paz del esclavo oprobiosa
Justa befa y escarnio del mundo.*

Curiosity: The score that is conserved was made by the musician Porfirio Sanchez from Holguin according to the testimony of Mambí soldier Sigfredo Urbino Guillén, musician of the Manuel Avilés orchestra.

The Shield of the city

The shield is of a remarkable simplicity. In its interior the figures of the two patrons of the city are drawn. San Isidoro, who was Bishop of Seville, to whom Francisco García Holguín had entrusted his herd and who later gave name to our city of San Isidoro de Holguín and the Virgen del Rosario, patron saint of the neighbors who populated Holguin when it was founded.

The cultural traditions in the territory have their origin in the transculturation produced between the aboriginal, Hispanic and African ethnic groups; these last two components represent the basic trunks of this process, as well as the influence of other ethnic groups that arrived in the twentieth century from the English and French speaking Caribbean, mainly Jamaican and Haitian.

It is also the birthplace of illustrious writers and painters. This is the land of the family Castro-Ruz. To visit the province is to find a different way of understanding Cubaness, another way of living in the Caribbean.

A fan of possibilities, this region is, without a doubt, unmatched.

Attractions

| Holguín City

The city of Holguín, “City of parks”, founded on April 4, 1545 by Captain García Holguín, is the only Cuban city whose center is marked by the existence of several parks. Bordered by cultural centers, its squares, museums, its nature and the beautiful walk to the emblematic Loma de la Cruz.

PARQUE CALIXTO GARCÍA

Center of life in Holguín. In its origins it had military purposes, such as the Plaza de Armas of the Spanish garrison. In its surroundings, the main shopping centers were founded.

CENTRO CULTURAL PLAZA DE LA MARQUETA

The Plaza de La Marqueta is a distinguished place, a cultural, commercial and historical space that is located in the historic center of the

City of Holguín. It was inaugurated in the year 1848 and is currently one of the cultural attractions of the city of the Parks. In the corridors there is an old printing house, bazaars for the exhibition and sale of works by artisans, plastic artists and writers, an engraving workshop and an art gallery. In the nineteenth century the site was Plaza O'Donell. In the 20th century, the market was built and, later, ceramic ovens and workshops were installed there until the year 2000.

LOMA DE LA CRUZ

On May 3, 1790, the Prior Franciscan Antonio de Alegrías, climbed to the top of the hill with a wooden cross at a cost. He nailed it to the top so that it could be seen by the residents of the city. According to Christian tradition that day the mother of Emperor Constantine the Great discovered the cross on which Christ suffered the ordeal. From that day and year the hill Bayado began to be called as Loma de la Cruz, becoming a symbol of the city.

BEACHES OF THE NORTH COAST

The Holguin beaches, Pesquero, Don Lino, Esmeralda, Turquesa and Guardalavaca, the main product offered to the vacationer, are considered among the most picturesque in the Caribbean, with turquoise waters, warm and calm due to the natural shelter offered by the coral formations. They are surrounded by a dense vegetation, whose intense green color creates a fabulous contrast with the creamy white tones of its fine sands and the clear blue of the sea.

NATURAL PARK BAHIA DE NARANJO

Between the sea and the mountain extends this natural jewel. The key, in the center of the bay, is the best sanctuary for recreation. In its grounds you can practice water sports such as rod fishing, safari and diving, as well as share a bath with trained dolphins and seafood. The park has a comfortable cabin built on a key next to the Aquarium.

CAYO BARIAY

It is an attraction of high historical interest - contemplative and tourist, located in areas of the stage where Admiral Christopher Columbus anchored his ships on October 27 and 28, 1492 on our island, where you can see the landscape that motivated his words when he exclaimed: " This is the most beautiful land that human eyes have seen ... "

CAYO SAETÍA

Near the Bay of Nipe, the largest in Cuba, has an area of 42 km². 65% of its territory is covered with forests, and the rest are grassland pastures where they are in total freedom antelopes, zebras, deer, wild boars, jutias, wild bulls, suitable for the practice of exciting excursions by yacht or jeep safari and horseback riding.

BIOPARQUE ROCAZUL

On the west coast of Naranjo Bay, very close to the Guardalavaca, Esmeralda, Pesquero Nuevo and Turquesa Beaches, 50 km from the city of Holguín is the Rocazul Biopark. Here nature, culture and history are combined in 148.7 hectares of natural forests. Ideal for the enjoyment of beauty and adventure in a reserved and peaceful environment. Expert ecoguides open their doors to offer something dreamed by all: a country day. An incredible wealth of fauna and flora with more than 115 species of plants, many of them endemic. Hiking, horseback riding, cycling, trekking, bird watching, naturalist navigation, wildlife observation, shallow diving, observation of landscapes, customs and peasant traditions.

VALLE MAYABE

A few minutes and southeast of the city of Holguín, the road goes into the field to the detour that leads to the top of this elevation (Mirador de Mayabe). There they reproduce the customs of the country man in Cuba.

PINARES DE MAYARÍ

To the northeast of the mountain range of Holguín. For nature lovers it is ideal for the abundant flora and fauna, and for presenting a comfortable accommodation, Villa Pinares de Mayarí. Its vegetation and endemism serves as a habitat for many bird species. It is recommended for hiking. It is one of the most interesting areas of the country, with 67 local endemic plant species. It is located in the Alejandro de Humbolt Park, Biosphere Reserve.

SALTO DEL GUAYABO

Located in the heart of Sierra Cristal, in the National Park Pilot and Biosphere Reserve by UNESCO. Formed by two waterfalls with vertical falls of 85 and 127 meters, respectively, with an unparalleled natural beauty, suitable for mountaineering and ecotourism.

ALDEA TAÍNA

Located in the town of Yaguajay, in the municipality of Banes, you will reach the first aboriginal cemetery of farmers-potters found in Cuba. It is the controversial archaeological site of Chorro de Maíta, a place where there is supposed to have been a Hindu-Hispanic contact. There are all the burial forms found not only in the country, but also in the Caribbean, as well as some variants that had never been registered before.

BIRÁN

Emblematic place of Cuban geography that becomes a character in the life of Fidel Castro. From the moment one arrives at the site, one feels that freshness, the noise of the water, of the trees, of the birds, the greenery of nature, the pure air; to this natural beauty joins the historical value.

The set of buildings that make up the site built between 1914 and 1917 has an exceptional value for the history of Cuba and the world revolutionary movement

GIBARA

Gibara, also known as La Villa Blanca de los Cangrejos, is a city with coasts. It is located in the northwestern part of Holguín province, west of the bay of the same name. Among the natural tourist attractions are its beaches, the bay, its caves and natural landscapes. It also highlights picturesque reliefs of great scenic value, the beauty of its seabed and its speleological attractions as places of inestimable value.

Tips for the traveler

1- Do not forget to visit our beaches on the north coast, Guardalavaca Beach, Esmeralda Beach, Pesquero Beach, Don Lino Beach, Yuraguanaly Beach and White Beach.

2- Live the emotion of the Salto del Guayabo in La Mesura, and the beauty of Cayo Saetía.

3- To learn more about our history, visit the Birán Museum, La Periquera, Museo Chorro de Maíta and Cayo Bariay.

4- In the evenings visit our Night Cabaret.

5- Visit Gibara, the New Destination.

6- Remember to always carry your ID passports, visas, driver's licenses.

7- Due to our weather make sure to bring along sunscreens, glasses, hats and comfortable and fresh clothes.

8- If you need medical attention go to the nearest position and keep your health insurance updated.

9- Remember the export measures when buying a souvenir.

10- Go to your representative or customer service staff in case of emergencies.
